

Application to change waste service for units

The Council Kerbside Waste Management Collection Service operates with a three-bin system. Each property is provided with a 240 litre bin for recyclables, a 240 litre bin for food organics and garden organics (FOGO) and a 120 litre or 140 litre bin for residual waste. Bins are emptied on a fortnightly basis.

At the Council meeting held on 18 May 2020 it was resolved that multiple-unit complexes could have the option to reduce the bin size or the number of bins.

Option 1 is to continue to provide individual services to each unit but reduce all bin sizes to 140 litre bins. There would be no cost reduction for this option.

Option 2 is to reduce the number of services to the unit complex. The minimum requirement would be for the complex to have at least half of the full number of services, e.g. if the unit complex has five units, it would need to retain at least three services. It would be up to the body corporate to identify areas for storage, deal with owner disagreements, organise for presenting and collection of bins and make the submission requesting the change. Costing would be apportioned on a pro-rata basis across all units, e.g. for five units with three collection services, each unit would pay 60% (3/5) of a standard collection service. An annual confirmation is required to continue the reduced service. The full fee will be applied on the rates notice and the reduction applied via remission.

Please complete the details on the next page and return your completed application form to the Council:

Email: admin@centralcoast.tas.gov.au

Post: Central Coast Council
PO Box 220
ULVERSTONE TAS 7315

In person: Administration Centre at 19 King Edward Street, Ulverstone.

If you have any questions in regard to this application, please contact the Council's Services Officer on tel. 6429 8110.

Once your application has been received a Council officer will contact you to discuss your request further.
