

Central Coast Youth Leadership Council Terms of Reference

Objectives and delivery of the project

The project's vision is to produce a vibrant and cohesive Central Coast community with the capacity to and ownership of the need, to maximise the education, employment, training, and leadership pathway opportunities of its young people.

Role and Scope of the Youth Engaged Steering Committee

The strategies of the Central Coast Youth Leadership Committee are to provide positive outcomes in employment, training, and education for our young people by:

- . Coordinating and supporting existing relationships, initiatives and programs between schools and the business and community sectors;
- . Provides leadership in the development of new initiatives and programs, including mentoring in the workplace;
- . Develop activities that engage young people currently not in employment, training or education;
- . Promote leadership potential within the schools.

The committee provides the youth of the Central Coast Municipality area a voice on issues that affect them in their community in regard to the terms of reference.
